

AY 2022-

7. Results, Planned Actions, and/or Actions Taken Briefly summarize the assessment results, how they relate to benchmark(s), and how you are using them to enhance student learning and improve program quality.

All program outcomes are evaluated during students' third and final year in the program. In 2022-2023, there were three third-year students. Two of the students achieved all four learning outcomes suggesting the program is currently meeting its goals. One student delayed starting practicum to the AY 2023-24 due to personal reasons. This student will be evaluated in the program assessment for AY 2023-24.
